

OHA RESEARCH CENTER
READING ROOM
SUBJECT FINDING AID

The primary research collection of the Onondaga Historical Association is the Vertical File collection, which is contained in over 100 file cabinets and has been gathered over the course of the past century.

The *Vertical File Collection* of the Onondaga Historical Association's Research Center has five main divisions or series:

- Biographical/Genealogical
- Block
- Image
- Subject
- Town

each of which has numerous subdivisions or sub-series.

BIOGRAPHICAL / GENEALOGICAL FILES

The *Biographical Files* contain newspaper clippings, research notes, photographs, ephemera, genealogical information, and other material on specific individuals or families. These are arranged alphabetically. In many instances there are separate files for individuals while in other cases there are general files for a particular surname.

Note: there is a separate listing of Genealogical Titles in this guide, which is a list of printed/published genealogies.

BLOCK FILES

The *Block Files* contain material primarily pertaining to the Syracuse City blocks and wards. There are separate block files for Salina and Geddes Blocks, which pertain to areas pre-dating the incorporation of the City of Syracuse in 1848.

The files contain newspaper clippings, photographs, sections from the Sanborn Fire Insurance Atlases from 1894 through 1950 (not consistently for each and every block), and other materials relating to the structures and land usage patterns within a limited area including Syracuse.

The easiest point of access to the Block Files is the reference set of 1957 Sanborn Atlases.

Note: there is additional information contained in the general Syracuse files on Subdivisions and there are separate files on some Syracuse City Streets.

PRINT FILES

The *Print Files* contain images, both photographic prints and rotogravures from the newspapers, and are arranged similarly to the Subject Files.

Note: there is a separate finding aid for the Print Files.

a separate sub-series of photographs is part of the Town Files.

SUBJECT FILES

The *Subject Files* comprise the largest division within the Vertical File Collection. These files include newspaper clippings, original documents, research notes, and other paper items relating to the specific topic covered by the subject. The Subject Files are broken down into Subject Headings and further into Subject Subheadings. These Heading and Subheadings are listed on the following pages.

TOWN FILES

The *Town Files* contain newspaper clippings and other materials on the Towns within Onondaga County. Information on individual villages, sites and topics relative to the particular Town is contained in this series.

Note: a sub-series, Town Photographic Files, contains photographs and other graphic images arranged by Town.

SUBJECT FILE HEADINGS

This list of file headings note which headings have been further broken down into subheading lists. The subheading lists follow the main list and are marked with the plastic guide tabs.

Volume 1.

ABOLITION & ACCIDENTS/CATASTROPHES
 AGRICULTURE & FARMING
 AMUSEMENTS (see SPORTS)
 ARCHITECTS (see BUSINESS)
 ART
