Syracuse, N.Y. — Steven and Jennifer Morgan aren't going far from their home on Robineau Road.

They bought the place right next door. Still, they're sad to leave their first home behind.

"We reluctantly left this house," Jennifer said.

Their first home dates to the 1920s. The original plans for the home came from noted architect Ward Wellington Ward.

The house doesn't appear on the official list of Ward homes because he became ill and didn't finish it himself. But the Morgans confirmed his involvement through Onondaga Historical Association records.

And the home features many typical Ward signatures, including Mercer ties around the fireplace.

The Morgans bought the house in 2008. They both grew up in the area and had heard good things about Syracuse's Strathmore neighborhood.

Jennifer works as a pharmacist, and Steven owns a trash hauling business.

"We both love antiques and old things," Jennifer said. "We wanted a house with character. We found this one and jumped at the chance."

The house was in good shape when the Morgans bought it, but they completed some upgrades.

The couple added granite countertops in the kitchen, refinished the master bathroom upstairs, painted the interior and refinished the home's hardwood floors. They also did some maintenance work on the home's chimney and brick exterior.

A portion of the home's third floor is finished, and the view extends all the way to Destiny USA and Onondaga Lake. Jennifer Morgan said it's a favorite place for her kids to watch fireworks held occasionally at Syracuse Chiefs games.

She also said they've become big fans of the neighborhood and their street in particular. The Robineau name comes from Adelaide Alsop Robineau, a potter, painter and ceramics artist who lived in the area.

She's responsible for a well-known vase, the Scarab Vase, in the collection at Syracuse's Everson Museum.

"We just love the neighborhood," Jennifer Morgan said. "We didn't want to leave."
